

Course of Study / Four Year Plan Worksheet

Name:		This 4-year plan does not guarantee classes for the next 4 years. This is a work-in-progress and may change as availability of classes change or as choices for career path change. Anything that is not a required course is considered an elective and may be written in that section. The official Program of Studies should be consulted when decisions regarding graduation are being considered (i.e. graduating on recommended vs. distinguished plan).
